

Cosmology Model Main Documentation

Table of Contents

- (1) [Cosmology Model Preface](#)
- (2) [Input Documentation](#)
- (3) [Default Output Documentation](#)
- (4) [How to move Observer to the past](#)
- (5) [How to move Observer to the future](#)
- (6) [How to obtain 8 tables of 50 different z values](#)

IPad Users should set reading mode to 50% (as shown)

The screenshot shows an iPad browser interface. At the top, the address bar displays "Not Secure — davidcook.com". Below the address bar, the page content is displayed in a reading mode with a font size of 50%. The page title is "Reciprocal...nce_Formula". The main content area contains several paragraphs of text, including "4970 Gyr with CMB viewed as redshift = 1091.000", "The Big Bang (Observer located at 'now' or z = 0.0)", and "Age since Big Bang (at redshift 3.000) was 2.171480953 Gyr.". A sidebar on the left contains navigation options: "Show Reader View", "Hide Toolbar", "Request Desktop Website", and "Website Settings". The "Website Settings" section is expanded, showing various options like "View at z:", "Show z Tables", "No Notes", and "Documentation PDF". The main content area also includes a list of bullet points and a "Now using: zinput = 3.0000000" section.
